

Important Terms

Term	Section	Chapter
rules	What is a Game?	1
game	What is a Game?	1
goals	What is a Game?	1
object (of the game)	What is a Game?	1
play	What is a Game?	1
4 essential elements of a game	What is a Game?	1
pretending	What is a Game?	1
termination condition	What is a Game?	1
victory condition	What is a Game?	1
loss condition	What is a Game?	1
challenge	What is a Game?	1
actions	What is a Game?	1
gameplay	What is a Game?	1
symmetric game	What is a Game?	1
asymmetric game	What is a Game?	1
6 competition modes	What is a Game?	1
3 principles of aesthetics	Games for Entertainment	1
4 types of immersion	Games for Entertainment	1
serious games - 7 uses	Serious Games	1
player-centric	An Approach to the Task	2
designer-driven game	An Approach to the Task	2
market-driven game	An Approach to the Task	2
technology-driven game	An Approach to the Task	2
license(-driven game)	An Approach to the Task	2
art-driven game	An Approach to the Task	2
core mechanics	Key Components of Video Games	2
realism	Key Components of Video Games	2
camera model	Key Components of Video Games	2
interaction model	Key Components of Video Games	2
gameplay modes	The Structure of a Video Game	2
shell menus	The Structure of a Video Game	2
moveset	Game Design Document	2
flowboard	Game Design Document	2
five factor model	VandenBerghe's Five Domains of Play	4
five domains of play	VandenBerghe's Five Domains of Play	4
6th domain	VandenBerghe's Five Domains of Play	4
gender inclusive	Demographic Categories	4
Kaye Elling's 5 Cs	Demographic Categories	4
binary thinking	The Dangers of Binary Thinking	4
brainstorm	Getting an Idea	7
game concept/pitch doc	Getting an Idea	7
player's role	From Idea to Game Concept	7

Important Terms

Physical Dimension	The Dimensions of a Game World	8
2D	The Dimensions of a Game World	8
2.5D	The Dimensions of a Game World	8
3D	The Dimensions of a Game World	8
4D	The Dimensions of a Game World	8
scale	The Dimensions of a Game World	8
boundaries	The Dimensions of a Game World	8
Temporal Dimension	The Dimensions of a Game World	8
anomalous time	The Dimensions of a Game World	8
Environmental Dimension	The Dimensions of a Game World	8
Emotional Dimension	The Dimensions of a Game World	8
Ethical Dimension	The Dimensions of a Game World	8
Realism	Realism	8
self-defining play	Self-Defining Play	9
functional attributes	Self-Defining Play	9
cosmetic attributes	Self-Defining Play	9
constrained creative play	Creative Play	9
sandbox mode	Creative Play	9
freeform creative play	Creative Play	9
mods & dangers of mods	Game Modifications	9
avatar	The Goals of Character Design	10
nonspecific avatars	The Relationship Between Player and Avatar	10
specific avatars	The Relationship Between Player and Avatar	10
indirect control mechanisms	The Relationship Between Player and Avatar	10
direct control mechanisms	The Relationship Between Player and Avatar	10
humanoid	Visual Appearances	10
nonhumanoid	Visual Appearances	10
hybrid	Visual Appearances	10
hypersexualized	Visual Appearances	10
character dimensionalities	Character Depth	10
Campbell's 8 character archetypes	Character Depth	10
Voice and Language elements	Audio Design	10
5 requirements of a good story	Key Concepts	11
interactive stories	Key Concepts	11
narrative	Key Concepts	11
dramatic tension	Key Concepts	11
gameplay tension	Key Concepts	11
storytelling engine	The Storytelling Engine	11
linear stories	Linear Stories	11
nonlinear stories	Nonlinear Stories	11
immediate, deferred, and cumulative influence	Nonlinear Stories	11
branching story	Nonlinear Stories	11
foldback story	Nonlinear Stories	11

Important Terms

granularity	Granularity	11
3 mechanisms for advancing the plot	Mechanisms for Advancing the Plot	11
scripted conversation	Scripted Conversations and Dialogue Trees	11
dialogue tree	Scripted Conversations and Dialogue Trees	11
frustrated author syndrome	Other Considerations	11
unlimited series	Other Considerations	11
serial	Other Considerations	11
limited series	Other Considerations	11
general principles of UI design	Player-Centric Interface Design	12
what the player needs to know	Player-Centric Interface Design	12
what the player wants to do	Player-Centric Interface Design	12
abstraction	Managing Complexity	12
automation	Managing Complexity	12
broad interface	Managing Complexity	12
deep interface	Managing Complexity	12
specific interaction models	Interaction Models	12
specific camera models	Camera Models	12
main view	Visual Elements	12
HUD	Visual Elements	12
feedback elements	Visual Elements	12
3 feedback element categories	Visual Elements	12
localization	Visual Elements	12
text display size	Visual Elements	12
typefaces	Visual Elements	12
input terminology	Input Devices	12
screen-oriented steering	Navigation Mechanisms	12
avatar-oriented steering	Navigation Mechanisms	12
flying	Navigation Mechanisms	12
pathfinding	Point-and-Click Navigation	12
most common customization	Allowing for Customization	12
what makes a game fun?	Making Games Fun	13
atomic challenge	The Hierarchy of Challenges	13
explicit challenge	The Hierarchy of Challenges	13
implicit challenge	The Hierarchy of Challenges	13
intrinsic skill required	Skill, Stress, and Absolute Difficulty	13
absolute difficulty	Skill, Stress, and Absolute Difficulty	13
stress	Skill, Stress, and Absolute Difficulty	13
10 categories of commonly used challenges	Commonly Used Challenges	13
defining actions	Actions	13
4 ways of saving	Saving the Game	13
pros/cons of saving game	Saving the Game	13
define core mechanics	What Are the Core Mechanics?	14
5 types of mechanics	What Are the Core Mechanics?	14

Important Terms

core mechanics & level design interaction	What Are the Core Mechanics?	14
resource	Key Concepts	14
entity	Key Concepts	14
compound entity	Key Concepts	14
simple entity	Key Concepts	14
unique entity	Key Concepts	14
definition of mechanics	Key Concepts	14
global mechanic	Key Concepts	14
event	Key Concepts	14
process	Key Concepts	14
mechanic defined in terms of entities	Key Concepts	14
condition	Key Concepts	14
numeric relationships	Key Concepts	14
symbolic relationships	Key Concepts	14
economy	The Internal Economy	14
drain	The Internal Economy	14
source	The Internal Economy	14
trader	Managing Complexity	14
converter	The Internal Economy	14
intangible resource	The Internal Economy	14
tangible resources	The Internal Economy	14
deadlock	The Internal Economy	14
feedback loop	The Internal Economy	14
mutual dependency	The Internal Economy	14
static and dynamic equilibrium	The Internal Economy	14
game of emergence	Progression Mechanics	14
game of progression	Progression Mechanics	14
3 major kinds of progression	Progression Mechanics	14
tactical maneuvering	Tactical Maneuvering Mechanics	14
discrete vs continuous spaces	Tactical Maneuvering Mechanics	14
effects of landscape features	Tactical Maneuvering Mechanics	14
examples of unit attributes	Tactical Maneuvering Mechanics	14
types of social mechanics	Social Interaction Mechanics	14
active challenge	Core Mechanics and Gameplay	14
passive challenge	Core Mechanics and Gameplay	14
how player actions trigger mechanics	Core Mechanics and Gameplay	14
4 goals of core mechanics design	Core Mechanics Design	14
pseudo-code in writing mechanics	Core Mechanics Design	14
3 steps of core mechanics design	Core Mechanics Design	14
seed	Random Numbers and the Bell-Shaped Curve	14
Monte Carlo simulation	Random Numbers and the Bell-Shaped Curve	14
pseudo-random numbers	Random Numbers and the Bell-Shaped Curve	14
uniform distribution	Random Numbers and the Bell-Shaped Curve	14

Important Terms

PvE	What is a Balanced Game	15
PvP	What is a Balanced Game	15
dominant strategy	Avoiding Dominant Strategies	15
transitive relationships	Avoiding Dominant Strategies	15
shadow costs	Avoiding Dominant Strategies	15
intransitive relationships	Avoiding Dominant Strategies	15
orthogonal unit differentiation	Avoiding Dominant Strategies	15
Incorporating the element of chance	Incorporating the element of chance	15
point assignment system - asymmetric example	Making PvP Games Fair	15
making PvE games fair rules	Making PvE Games Fair	15
flow	Managing Difficulty	15
3 factors not controlled by the designer	Managing Difficulty	15
4 key factors controlled by the designer	Managing Difficulty	15
perceived difficulty	Managing Difficulty	15
relative difficulty	Managing Difficulty	15
perceived difficulty formula	Managing Difficulty	15
difficulty progression	Managing Difficulty	15
difficulty modes	Managing Difficulty	15
positive feedback	Understanding Positive Feedback	15
negative feedback	Understanding Positive Feedback	15
stagnation	Other Balance Considerations	15
trivialities	Other Balance Considerations	15
tuning and tweaking tips	Design to Make Tuning Easy	15
6 essential level designer responsibilities	What is Level Design?	16
11 universal level design principles	Key Design Principles	16
genre-specific level design principles	Key Design Principles	16
7 types of layouts	Layouts	16
7 tools of atmosphere	Expanding on the Principles of Level Design	16
progression	Expanding on the Principles of Level Design	16
pacing	Expanding on the Principles of Level Design	16
tutorial levels	Expanding on the Principles of Level Design	16
11 steps of the level design process	The Level Design Process	16
5 pitfalls of level design	Pitfalls of Level Design	16
